## WINNERS OF CIRCULAR VOUCHERS 2024:

Number	Initiative	Main applicant
1	Processes of circular production of polyurethane composite materials using modified waste edible oil and fillers extracted from agro-industrial waste	University of Kragujevac, Faculty of Agriculture in Čačak
2	New polymer clays with plasticizers obtained from waste plastics and recycled cellulose as filler	University in Belgrade - Faculty of Chemistry
3	A sustainable strategy for the revalorization of the cake obtained as a by-product in the production of cold-pressed linseed oil	Innovation Center of the Faculty of Technology and Metallurgy in Belgrade
4	The use of corn waste to obtain insulation material in construction	University in Belgrade - Faculty of Biology
5	Innovative encapsulation technologies and 3D printed biodegradable packaging in the cosmetic industry	The Faculty of Technology and Metallurgy in Belgrade
6	Eco-panels based on industrial hemp - waste from the processing process as a raw material for innovative bioproducts	University in Belgrade - Faculty of Forestry
7	Valorization of phosphogypsum by sequestering SO <sub>2</sub> from waste streams of production processes	Faculty of Technology in Leskovac, University of Nis
8	Production of biochar from sewage sludge in accordance with sustainable renewal of bioresources and reduction of carbon emissions	University of Novi Sad - Faculty of Technical Sciences
9	Impregnation for fire-resistant wood with improved mechanical properties	Institute of Nuclear Sciences "Vinča"
10	Hidros++ - System for monitoring and analysis of water supply systems	The School of Electrical Engineering, University of Belgrade
